 Iraq - Erbil

 info@smrsgroup.com

TOPICS

40 years' experience in various electric sectors. The background history has awarded company by reputations, high quality, reasonable rates, and fast delivering.

We distribute and deliver through the network to far-reaching places and cities in Iraq.

The most comprehensive range composed of 100,000 different products, including services.

Everything starts with the design. Including planning, creating, testing, or supervising the development and installation of electrical equipment such as lighting equipment, power systems, power distribution, fire and life safety systems, electronic components, and voice and data communications infrastructure.

Continuous laboratory and R&D studies, depending on the partners all over the world. That leads to improve the quality of products and promote new technologies.

Quality certificates from well-known organizations relying on obtaining the stakeholders' needs and excellence principles. Considering the quality of the products and services, environmental and safety considerations.

Import from multiple countries according to the customers' requirements and global standards.

Customer satisfaction through the years, as we think that they are our most valuable assets.

OUR VALUES

Integrity

We execute responsible decisions based on professional standards.

Innovation
